## Details of Assignments

### [Assignment 1 – On line discussion \(30%\)](#)

Students will participate in the on line discussion each Monday from 5:00 pm. – 6:30 pm. The focus of the discussion will be on the assigned reading for the week. Active participation in the on line discussion is a critical component of this course. It is expected that students will participate in an interactive dialogue and make original substantive contributions

to the discussion. Students will be required to have a microphone and speakers or a headset to participate in the discussion.

### Discussion Guide

Students are required to participate in the on line discussion as this dialogue is intended to reflect exchanges that would take place in a classroom. The discussion will be scheduled with a different topic each week as outlined in the schedule (posted on Blackboard). The instructor will monitor the content and quality of the discussions and contribute reflections and feedback as the course progresses. Each week, postings will be rated on a scale of 0-3.

0: did not participate

1: present; limited participation

2: present; participation reflects only on assigned readings

3: present; participation brings in original ideas and utilizes additional material and resources

**You are encouraged to ask questions, elaborate on information, challenge and produce ideas about the topic. Contributions to the discussion must be content based and reflective. The purpose of the discussion is to facilitate learning and engage with other students to promote a broad knowledge base regarding the material. This dialogue will contribute to an interactive exchange and greater understanding of policy, programs and services.**

### Assignment 2: Self reflection paper (30%)

Students will be expected to write a three to five page review/critique of their involvement in terms of participation, learning and benefits of the dialogue. This paper should identify the key themes of the course discussion, learning that has resulted from the discussion and how practice may be affected as a result of the learning. It is expected that students will adhere to APA format (6<sup>th</sup> ed.)

**Due April 9.**

### Assignment 3: Presentation (40%)

You will be presenting to your peers for the express intent of sharing information about a service that is known to you. Your presentation may be made in text or using power point as the medium. The presentation is expected to provide a description of the service or program, to identify the policies that affect the service and to compare this service to what is offered in one other jurisdiction. You might consider including a brief history of the organization, what services or programs are offered in the organization and who is served. Be sure to identify the problem or issue that is being addressed by the organization and the policies (international, federal or national, state or provincial and local) that affect this organization. The presentation should include how this service option compares to another jurisdiction. Conclude your presentation with a look at recommendations and alternatives both to policy and service.

Please create your presentation and then attach as a word or power point document rather than within the body of a posting message.

During your assigned week of presentation, you will moderate the discussion in the forum.

**Your presentation is limited to 10 power point slides or 5 pages of text. You will post your presentation in your group and moderate the discussion during the week of presentation.**

**Presentations will be made during weeks 11-12 of the course, March 22 and March 29.**
